19.	JOURNALS	
	 (a.) Kiserletes Orvostudomány (Experiental Medicine) is now in its fifth year, about sight-hundred pages yearly. Papers are in Hungarian with Russian, German, French and some English summaries. length of papers are u-12 pages. (b.) Acta Physiologica Academiae Scientificae Hungariae, papers are in foreign languages, with summaries in the other foreign languages. About five-hundred pages, length of papers, 8-20 pages. Rejection rates must be fairly nigh because of the quality of the article and the large incentive to have papers published in it. 	
20.	RESEARCH PROGRAM CHARGES:	
	No definite research plan existed in 1945. Departments were working on projects carried over from pre-war days or on work feasible under the extremely difficult condition. Reorganization was slow because of the difficulties of getting apparatus and reagents. Presearch still is greatly hampered by lack of such equipment as apparatus at the latter in limited production), automatic scales and Creck models will be available), shallytical reagents (the Creck ganizing research was to centralize deposite purplies in departments best equipment for solving it. Research projects and to be submitted in writing and when	•
